Electronic Evidence #2 Depth and Application Project (DnA) Description

Content Knowledge: Evidence that demonstrates candidate depth of understanding and application of content knowledge in the specialty area.

Description: Candidates will analyze, synthesize, and explore, in depth, a topic in their content area. Imagine a textbook in your content area, and write a 13-15 page chapter that would appear in that textbook. The chapter must reflect a depth of knowledge in the particular subject, utilize and properly document at least ten primary and secondary resources, and reflect the features that support 21st century literacy learning.

Evaluation: The candidate's chapter submission will be evaluated by the course instructor in *EDU 3280: Literacy in the Content Area* (40%), the content instructor from the department in which your content area is held (50%) and by the candidate's peers in the Professional Learning Community presentation (10%). The latter will occur when the presentation is made to the Professional Learning Community.
