Electronic Evidence #3 Literacy Infused Curriculum Project: Special Education Project Rubric

Evidence Descriptors and Evaluation Tool

Highlighted yellow text below describes how the evidence specifically addresses each of the descriptors. The rubric will be used for the instructor's evaluation of the project as it related to the course grade as well as for gateway assessment for the unit's comprehensive assessment plan for NCATE.

Alignment with the NC Professional Teaching Standards

The Literacy Infused Curriculum Project assessment is designed to provide evidence of the candidate's performance relative to the following standards and elements:

Teachers demonstrate leadership. This performance assessment requires candidates to develop a unit of cohesive, meaningful, and purposeful lesson plans that integrate English Language Arts, Computer/Technology, Arts, and Social Studies *North Carolina Common Core/Essential Standards* Goals and Objectives.

1a.2 Draws on appropriate data to develop classroom and instructional plans	Emerging/Developing 1 (Below 80%)	Proficient 2 (80-89%)	Accomplished 3 (90-100%)	Evaluation
the candidate will demonstrate the ability to utilize instructional strategies/materials based on existing performance data for students in the EDU 4144 classroom and the relevant NC Common Core/Essential Standards to produce a cohesive unit of five (5) lesson plans centered on at least one discipline specialization in grades K-12 (choose one grade level appropriate for the licensure area)	The 5 lesson plans do not purposefully integrate the relevant NC CC/ES goals and objectives or student performance data to plan a cohesive unit of study.	The 5 lesson plans form a cohesive unit centered on a discipline-specific topic in math and science which evidence the purposeful integration of the relevant NC CC/ES goals and objectives along with available student performance data.	The 5 lesson plans form a cohesive unit centered on two or more discipline-specific topics which evidence the purposeful integration of the relevant NC CC/ES goals and objectives for one grade level and available student performance data. The unit evidences thoughtful application of available data to develop activities that promote student engagement and lifelong learning.	EDU 4140

4a.2 Assesses and uses resources needed to address strengths and weaknesses of students.	Emerging/Developing 1 (Below 80%)	Proficient 2 (80-89%)	Accomplished 3 (90-100%)	Evaluation
The candidate must plan and analyze data from each lesson to determine if the objective(s) was met and to what degree students were successful in meeting the stated objective. The analysis of data should enable the candidate to plan next instructional steps.	The assessment plan is poorly developed or lacking. Two or fewer of the lessons indicate that assessment data was incorporated into the Literacy Infusion Project or the assessments do not appear to align with the objective(s) of the lessons included in the unit.	An assessment tool that aligns with the objective(s) accompanies at least 3 of the lesson plans in the Literacy Infusion Project. Data that allow the candidate to plan next instructional steps is provided.	Each lesson plan in the Literacy Infusion Project is accompanied by an appropriate assessment tool that aligns with the objective(s) of the lesson and provides data to allow the candidate to plan next instructional steps. Evidence that the candidate used the assessment tool in delivering select lessons during EDU 4144 is provided.	EDU 4144 EDU 4140
