

Azalea Path (Slane Side)

Bed Map

Winding its way around the Slane Center bordering the walkway and continuing behind Blessing Residence Hall, this garden offers a colorful contrast to the neighboring ponds and splashing fountains. A generous donation of 50 Encore® Azaleas from Pender Nursery (Garner, NC) in 2009 was a welcome expansion of the collection. Hues ranging from ruby reds to pinks and purples erupt in spring with rebloom occurring in fall, truly a magnificent sight to behold. In spring of 2012, an additional donation by Flowerwood Nursery in Loxley, AL brought the number of different Encore® Azaleas to 23. Late fall 2013 saw additional renovation and expansion of the garden enlarging the collection to over 85 different types of azaleas. Additional planting of spring and fall blooming perennials, several thousand daffodils donated by Brent & Becky's Bulbs, and assorted flowering trees and shrubs should create a explosion of color in spring and continue with interest into summer and hit another high note in fall.
