

# The Moon Garden

---

Bed Map

This garden features many plants which possess white or pale flowers or plants which tend to showcase themselves in the evening hours either through flowers, fragrance, or foliage. An emphasis was placed on the addition of many woody plants recently which display unique traits such as weeping branches which can be highlighted in the evening through lighting.

# Moon Garden Plant List

April 17, 2014

Bed	Botanical name	Common name
MG1	<i>Stachys byzantina</i> 'Helene von Stein'	lamb's-ears
